PROFESSIONAL SUMMARY

Senior backend engineer with 8+ years building distributed payment systems at scale. Led the migration of a monolithic ledger to event-sourced microservices handling 4M transactions per day. Deep experience in Go, Kafka and PostgreSQL, with a track record of cutting p99 latency and mentoring engineers.

WORK EXPERIENCE

Staff Software Engineer

Mar 2022 - Present

Razorpay — Bengaluru, India

- Architected an event-sourced ledger on Kafka and PostgreSQL that processes 4M transactions daily with 99.99% durability.
- Reduced p99 settlement latency from 840ms to 190ms by introducing batched writes and a read-through Redis cache.
- Led a team of 6 engineers through a zero-downtime migration off a 400k-line Rails monolith.
- Established the org-wide incident review process, cutting repeat Sev-1 incidents by 62% year over year.

Senior Software Engineer

Jul 2019 - Feb 2022

Flipkart — Bengaluru, India

- Built the pricing rules engine in Go serving 120k RPS at peak during Big Billion Days.
- Designed a multi-region failover strategy that held availability above 99.95% during two datacenter outages.
- Mentored 4 junior engineers, two of whom were promoted within 18 months.

Software Engineer

Aug 2016 - Jun 2019

Zoho Corporation — Chennai, India

- Developed REST APIs in Java and Spring Boot for the Zoho Books invoicing module used by 300k businesses.
- Automated the regression suite with Selenium, reducing release QA time from 3 days to 6 hours.

EDUCATION

Master of Technology in Computer Science

2014 - 2016

Indian Institute of Technology Madras — Chennai, India

CGPA 9.1/10. Thesis on distributed consensus under partial synchrony.

Bachelor of Engineering in Information Technology

2010 - 2014

Anna University — Chennai, India

TECHNICAL SKILLS

Languages: Go, Java, Python, TypeScript, SQL

Infrastructure: Kubernetes, Docker, Terraform, AWS, GCP

Data: PostgreSQL, Kafka, Redis, Elasticsearch, ClickHouse

Practices: Distributed Systems, Event Sourcing, CI/CD, Observability

PROJECTS

ledgerlite

An open-source double-entry ledger library in Go with 2.3k GitHub stars. <https://github.com/priyar/ledgerlite>

Kafka Lag Radar

Prometheus exporter that surfaces consumer-group lag as SLO burn rate. Adopted by 40+ teams internally.

CERTIFICATIONS

- AWS Certified Solutions Architect – Professional, Amazon Web Services, 2023
- Certified Kubernetes Administrator (CKA), Cloud Native Computing Foundation, 2021

ACHIEVEMENTS

- Winner, Flipkart Hackathon 2020 (out of 240 teams)
- Speaker at GopherCon India 2023 on event-sourced financial systems

LANGUAGES

English (Fluent), Tamil (Native), Hindi (Conversational)
