Marcus Delacroix

Principal Product Designer

SUMMARY

Principal product designer with 10 years shaping enterprise SaaS experiences. Built and scaled a design system now used by 9 product teams and 60 engineers. Known for pairing rigorous user research with fast, high-fidelity prototyping.

EXPERIENCE

Principal Product Designer

Atlassian, Austin, TX
January 2021 - Present

- Owned the end-to-end redesign of Jira's issue view, lifting task completion rate 34% in usability testing.
- Founded and scaled the Aurora design system across 9 product teams, reducing net-new UI build time by 40%.
- Ran a quarterly research program with 120+ participants that directly shaped the FY24 roadmap.

Senior Product Designer

Shopify, Remote
June 2018 - December 2020

- Redesigned the merchant onboarding flow, increasing 30-day activation from 41% to 58%.
- Introduced accessibility audits into the design review process, bringing 3 core surfaces to WCAG 2.1 AA.

Product Designer

Mailchimp, Atlanta, GA
August 2015 - May 2018

- Designed the campaign builder used by 4M+ small businesses monthly.
- Built the company's first component library in Sketch, adopted by all 12 designers.

PROJECTS

Aurora Design System

Open-sourced token pipeline and Figma-to-code workflow.
